

## Thanks To

Inspiration for the Lanphear Livery restoration project came from Frederick B. Whittemore, Chaplin B. Barnes, H. Brian Thompson, Charles M. Royce, Grant G. Simmons, III, and Nicholas Moore, among many others in the Watch Hill community.

The project would not have been possible without the generous support of the following:

Alfred M. Roberts Jr. Charitable Foundation

Lattner Family Foundation

Watch Hill Limited Partners

RI Historical Preservation and Heritage Commission

1772 Foundation

United States National Park Service

Chaplin B. Barnes

Frederick B. Whittemore

H. Brian Thompson

Deborah and Charles M. Royce

Grant G. Simmons III

Nicholas Moore

Richard C. Youngken

## Restoration Team

The restoration of the Lanphear Livery Stable was completed in 2016 to designs by Jack Evans of NewPort Architecture, LLC. Collaborating on the project were architects Mohamad Farzan and Doriene West Farzan of NewPort Architecture. Rich Youngken of Youngken Associates provided historic preservation consulting services. GNCB engineers provided structural engineering. Northeast Engineers provided environmental engineering. Project construction was undertaken and coordinated by Joe Pariseault and Gary Jennings of Pariseault Builders. The building lift was accomplished by Kettelle Building Movers. Ted Wetherill provided overall project management.
